

Shamalka Madubhashi

Dandenong, VIC 3175 • spshamalka@gmail.com • 0406755823

Professional Summary

A Highly motivated professional with a B.Sc.(Hons) in construction and a strong background in project management and coordination. Experienced in stakeholder collaboration, multitasking and skilled in negotiation. Detail-oriented with a solid understanding of construction and manufacturing settings. Proficient in Microsoft Office Suite with the ability to quickly learn new systems and procedures. Strong communicator with a can-do attitude and excellent written and verbal administrative skills.

Professional Experience

Labelling and Packing Coordinator

October 2021–Present

KG GROUP, Heatherton, VIC 3202

Operate Warehouse Management System (WMS) to generate and verify shipping labels, ensuring correct weight and size details, achieving nearly 100% labeling accuracy.
Train and mentor new staff in standardized procedures, decreasing onboarding time by half and improving team productivity.
Conduct thorough quality and quantity checks, grouping items for safe packing and shipping, minimizing damages and returns while maintaining about 95% accuracy.
Solve problems and reduce conflicts between labeling and packing teams through effective coordination and communication, ensuring smooth operations and adherence to health and safety standards.
Made process improvements in packaging special items like glass and liquids, saving time and packaging material by 30%, while also improving labeling efficiency.

Production Staff

February 2021–September 2021

Brown & Watson International Pty.Ltd, Knoxfield, VIC 3180

Operated and maintained multiple blister packaging machines for automotive parts (relays, connectors, globes), completing up to 500 units per shift with 98% accuracy.
Labeled and packaged finished products per quality standards, ensuring clear traceability and proper documentation.
Followed safety protocols and contributed to a zero-incident record over 12 months.
Maintained effective communication with team members and supervisors, supporting a productive and cooperative work environment.

Production Staff

November 2019–February 2021

Natural Beauty Care (Pty) Ltd, Highett, VIC 3190

Assembled beauty product components efficiently, consistently meeting production targets of up to 400 units per shift.
Adapted to multiple assembly tasks while ensuring smooth machinery operation and minimal downtime.
Monitored product weight and quality standards, maintaining 100% accurate production documentation.
Collaborated closely with team members to achieve daily output and quality goals.

Project Coordination Engineer

June 2017–October 2019

Sanken Construction (Pvt) Ltd, Colombo, Sri Lanka

Coordinated 17 design and build tender projects valued up to \$15M, including university facilities and apartment complexes, managing project schedules, resource allocation, and quality assurance.
Led tender preparation by organizing project meetings, reviewing design documentation, negotiating supplier contracts, and achieving a 100% on-time submission rate.
Managed project documentation including OHS compliance, permits, feasibility studies, surveys, and contractor communications across multiple concurrent projects.
Tracked project milestones and budgets, mitigated risks, coordinated with cross-functional teams and suppliers, and ensured adherence to safety and regulatory standards.
Represented the company at construction industry conferences and seminars, expanding professional networks and enhancing company visibility.
Supported recruitment efforts by participating in graduate interviews.

Project Engineer Intern

October 2015–April 2016

Project : Relocation of Tangalle Prison, Angunakolapelessa, Sri Lanka (AU\$39.2M) by Sanken Construction (Pvt) Ltd

Supervised site preparation activities including clearing, grading, floor work, and oversaw concreting of structural elements (columns, beams, slabs) for several buildings of the project. Managed daily site operations, ensuring quality standards, schedule adherence, and compliance with design specifications and safety protocols. Maintained project documentation, coordinated between head office, site office, and on-site labor teams, improving workflow communication. Directed subcontractors across multiple trades, conducted survey work, and monitored field lab tests to ensure material and construction quality. Achieved 95% of weekly and monthly project milestones by aligning site progress with project timelines, resources, and client expectations.

Education

Project Management Professional Certificate

August 2024–April 2025

Google

Key areas : Project life cycle management (Initiation, Planning, Execution, Closure), stakeholder communication, risk and change management, Agile and Scrum, Gantt charts, Kanban boards, WBS, RACI charts, Asana

Bachelor of Science (Hons) Specialized in Civil Engineering

May 2013–April 2017

University of Moratuwa, Sri Lanka

Key areas : project planning and management, Structural analysis, geotechnical engineering, construction materials and methods, fluid mechanics and hydraulics, transportation and environmental engineering, AutoCAD, SAP2000, MS Project, MATLAB and surveying tools

Other Certificates

Construction Project Management

April 2025

Columbia University, New York

Key areas : Construction project life cycle (Design, Procurement, Construction, Commissioning), project planning and scheduling, cost estimation and budgeting, contract management, risk management in construction, quality and safety management and Critical Path Method

Introduction to Artificial Intelligence (AI)

April 2025

IBM

Key areas : Fundamentals of AI, machine learning and deep learning, neural networks and large language models (LLMs), natural language processing (NLP), generative AI concepts, ethical considerations in AI and AI's impact on various industries.

Improve Efficiency in Asana for Project Managers

May 2025

Coursera Project Network

Key areas : Improved task management, workflow optimization, project setup, prioritization, and productivity using Asana.

Microsoft 365 Fundamentals

June 2025

Microsoft

Key areas : MS Word, MS Excel and MS PowerPoint - advanced formatting, graphics, references, and collaboration tools, data entry, formatting, tables, charts, presentations with layouts, multimedia, themes and presenting

Skills

Project planning, scheduling and documentation
Tech-savvy with a quick learning ability
Stakeholder communication and team coordination
Organizational and multitasking skills
Attention to detail and excellent time management
Strong interpersonal and software skills
